## READING

1 Read the text and answer the questions.

**Isambard Brunel**

Isambard Brunel was a great engineer. He built bridges, railways, tunnels, and boats. But what do we know about his life and work?

Brunel was born in Portsmouth in the south of England on 9th April 1806. His mother was English, but his father, Marc Brunel, was French. His father was a famous engineer in France, but he left his country in 1793. First he went to America and then to England, where he married an English woman in 1799. Isambard went to school in England and France, and spoke English and French.

When he returned to England from school in France, Brunel went to work for his father. In his first job, he and his father built a tunnel under the River Thames in London. Then, in 1831, Brunel won a big competition. It was for a bridge across the River Avon in Bristol in the south of England. The Clifton Suspension Bridge took 30 years to build, but today it is one of the most beautiful bridges in the world.

In 1833, Brunel got a new job. He became chief engineer for the Great Western Railway Company, and work began on the train line from London to Bristol. Today, when you travel to Bristol by train, you go over beautiful bridges and through fantastic tunnels – Brunel built them all. As well as bridges, tunnels and railways, Brunel designed some famous boats. The 'Great Western', built in 1837, was the first steamboat to go across the Atlantic Ocean to the USA. And the 'Great Eastern', built in 1859, was the biggest boat in the world.

Brunel wasn't a good businessman. The 'Great Eastern' was very expensive to build and he lost his money. He also smoked a lot every day and worked very hard. He was only 53 when he died on 15th September 1859.

Example: What was Isambard Brunel's job?

*He was an engineer.*

- Where was Isambard Brunel from? \_\_\_\_\_
- What was his father's job? \_\_\_\_\_
- What languages did Brunel speak? \_\_\_\_\_

- Which company did he get a job with in 1833?  
\_\_\_\_\_
