B How are the prepositions pronounced in fast, connected speech? Listen again and repeat the sentences.

9.2

3A CONNECTED SPEECH: past modals Look at the photo and read the sentences about it. Which do you agree with?

- It must have been an earthquake.
- It couldn't have been a bomb.
- The photo could have been taken around 1900.
- The people in the photo might have lived there.
- They can't have expected such a disaster.

B Underline the modal verb forms in the sentences in Exercise 3A. Then match them to the phonemic symbols below.

- a) /maɪtəv/ b) /kʊdəntəv/ c) /kɑːntəv/
d) /kʊdəv/ e) /mʌstəv/

C **9.3** Listen and repeat the sentences. Focus on the past modals.

9.3

4A CONSONANT CLUSTERS Read the Pronunciation tip and do the task.

speakout PRONUNCIATION TIP

Consonant clusters are groups of two or more consonant sounds that occur together and can be difficult to pronounce. For example, *trip* has the cluster 'tr' (/tr/), *cloud* has the cluster 'cl' (/kl/) and *splashed* has two clusters: 'spl' /spl/ and 'shed' /ʃd/. Underline the consonant clusters in these words. Which word has two consonant clusters? How are the words pronounced?

*pinch throw crab bathes accept scrape
strain angle filth*

B Two words in each sentence are missing the same consonant cluster. Complete the sentences.
