

HOUSEBOATS IN AMSTERDAM

There are 2500 houseboats in the city of Amsterdam. The boats are normal houses, but they are actually in the water! Most boats have two or three bedrooms, a kitchen, a bathroom, and a small living room. Many houseboats have dishwashers and microwaves in the kitchen. Also, the bedrooms are usually large with big beds. In many living rooms, there are TVs, DVD players, radios and CD players. Some bathrooms have both a shower and a bathtub. On some houseboats, there are gardens, too!

Igloos in Alaska

Igloos are ice houses. Some Inuit people in North America live in them. Igloos are usually small and there is only one room. The family sleeps, cooks and eats in the one room. They cook their food on a fire and sleep on large rugs on the floor. It is warm in an igloo because there are no windows and the door is small. There are also some big igloos. These igloos can have up to 5 rooms. Sometimes they use large igloos for meetings, dances, etc.

Read the texts and the sentences 1-6. Write H for Houseboats, I for Igloos or B for Both.
